

## **National Evaluation System for health Technology Coordinating Center (NESTcc) Targeted Expansion: Call for NESTcc Governing Committee Member Nominations**

### **Background**

In 2016, the U.S. Food and Drug Administration (FDA) awarded a grant to establish [The National Evaluation System for health Technology Coordinating Center \(NESTcc\)](#) to the Medical Device Innovation Consortium (MDIC). NESTcc's mission is to accelerate the development and translation of new and safe health technologies, leveraging Real-World Evidence (RWE) and innovative research.

The inaugural [NESTcc Governing Committee](#) was formed in July 2017 to serve in an advisory capacity to the NESTcc Senior Vice President. The NESTcc Governing Committee is comprised of key stakeholders from across the medical device ecosystem who are committed to the success of NESTcc and charged with inaugurating a Coordinating Center that is inclusive, patient-focused, and anchored in accountability and transparency. For additional information about the Governing Committee and NESTcc, please review the [NESTcc Charter](#).

### **NESTcc as a Collaborative Community**

In September 2019, NESTcc was named one of the first collaborative communities with participation by the FDA's Center for Devices and Radiological Health (CDRH). The purpose of the collaborative community is to bring together medical device stakeholders in a continuing forum of private- and public-sector members, including FDA, to achieve common outcomes, solve shared challenges, and leverage collective opportunities.

In order to be designated as a collaborative community, NESTcc amended its charter to align with the FDA's [Collaborative Communities Toolkit](#). One of the most important revisions reflected that NESTcc Governing Committee members represent a diverse range of stakeholders and are responsible for sharing the perspectives of their larger stakeholder communities and not just their own viewpoints. This structure helps ensure diverse and distributed leadership of NESTcc.

### **Intent of Targeted Call For Nominations**

As NESTcc continues to grow and diversify we are seeking up to two (2) individuals representing the following stakeholder groups:

- Digital Health/Software as a Service (SaaS)
- Healthcare Supply Chain Management (preferably within a Hospital System)
- Public and Private Payers
- Health Technology Assessment

### **Key Dates**

Opportunity Posted	July 9, 2020
Nominations Due	August 7, 2020
Applicants Notified	October 1, 2020

## Criteria

*Required criteria for each member:*

- Executive leader or member of the board of directors for a public or private payer, hospital system, medical/health technology organization, digital health/SaaS organization, or organization with significant competencies in IT or digital health development
- Several years of relevant experience (1) within the medical device ecosystem or (2) focused on diseases/conditions where medical devices play an important role in diagnosis, treatment, and/or monitoring
- Leading expert in relevant field (based on position/title, publications, or other experience)
- Experience with or appreciation for the use of Real-World Evidence (RWE)
- Ability to commit to Governing Committee responsibilities as outlined in the [NESTcc Charter](#)
- Sufficient time to dedicate to the role (monthly meetings as well as ad hoc requests from NESTcc)

*Desired attributes for each member:*

- Broad understanding and perspective on the policy, governance, and technology implications of NESTcc initiatives
- Experience as a leader working within a multi-disciplinary environment
- Trust within his or her professional community to interface with key thought leaders and subject matter experts
- Expertise to represent and secure buy-in from his or her broad stakeholder group
- Ability to operate beyond his or her own organizational role to provide the leadership and vision required to realize the opportunity RWE can deliver to benefit the ecosystem

## Nomination Submission and Selection Process

Nominations must include 1) the completed [nomination form](#) and 2) the nominee's CV or resume. These nomination materials must be submitted by email to [nestcc@mdic.org](mailto:nestcc@mdic.org) by **5:00 p.m. ET on Friday, August 7, 2020**.

Nominations that meet the criteria listed above will be presented to the NESTcc Executive Committee for review and selection. The Executive Committee will make a recommendation, which will be presented to the full Governing Committee for approval. Finally, the recommendation will be brought to the MDIC Board for approval.
